

ESLAM ABOSIFE

Security-Focused Front-End Engineer

Tanta, Egypt · +20 120 125 3897 · eslamabosife69@gmail.com · [Portfolio](#) · [GitHub](#) · [LinkedIn](#)

PROFESSIONAL SUMMARY

Security-focused Front-End Engineer with 2+ years of experience building scalable, responsive, and high-performance web applications using Vue.js, Nuxt.js, TypeScript, and Pinia. Experienced in SSR/SSG, REST APIs, automated testing, accessibility, Core Web Vitals, CI/CD, secure authentication, authorization, OWASP Top 10 principles, XSS/CSRF mitigation, CORS/CSP, secure cookies, and Supabase Row-Level Security.

TECHNICAL SKILLS

Front-End: Vue 3, Nuxt 3, TypeScript, JavaScript ES6+, React, Pinia, Vuex, Vue Router, HTML5, CSS3, Vite
Security: OWASP Top 10, XSS/CSRF Mitigation, JWT, OAuth, CORS, CSP, Secure Cookies, Input Validation, Secure Authentication, Supabase RLS, Firebase Security Rules
Testing: Vitest, Vue Test Utils, Playwright, Cypress, Unit Testing, E2E Testing, Browser Debugging, Code Review
APIs & DevOps: REST, GraphQL, Node.js, Express.js, ASP.NET Core, Middleware, SSR Data Fetching, Git, GitHub Actions, CI/CD, Docker, Supabase, Firebase, PostgreSQL, MongoDB
Performance & UI: Core Web Vitals, Lighthouse, SEO, Lazy Loading, Code Splitting, Accessibility/WCAG, Responsive Design, Tailwind CSS, Vuetify

PROFESSIONAL EXPERIENCE

Front-End & Security Engineer — Tamkin, UAE | Remote Dec 2024 – Present

- Lead front-end engineering across four products using Vue.js, React, Node.js, and Express.js with reusable components, responsive design, and secure development practices.
- Strengthen administrative interfaces, API endpoints, and media workflows through rate limiting, JWT authentication, session invalidation, input validation, and secure cookies.
- Implement TypeScript-ready patterns, Pinia state management, REST integrations, performance improvements, and accessibility-focused UI components.

Live Demo: tamkin-dashboard.vercel.app

Web Security & Front-End Intern — Awon Humanitarian Platform Jan 2024 – Aug 2024

- Developed a responsive charity platform with Vue.js and Vuetify, focusing on reusable UI, rendering performance, accessibility, and cross-device behavior.
- Designed granular Firebase Security Rules to protect donor records and financial data from unauthorized access and privilege escalation.

Live Demo: awon-template.vercel.app

Front-End Engineering Intern — Ella E-Commerce Retail Engine Jan 2024 – Jun 2024

- Built a dynamic e-commerce front end with Vue.js and Vuetify, implementing reactive state management, persistent carts, and reusable UI components.
- Applied input sanitization and payload validation across REST API workflows to reduce XSS and injection risks.

Live Demo: ella-ecommmre.web.app

SELECTED PROJECT

Electrical Store E-Commerce & Management Platform Jan 2026 – Present

- Built an e-commerce application and accounting dashboard using Nuxt 3, Vue 3, TypeScript, Pinia, and Supabase with real-time inventory tracking and SSR-ready routing.
- Protected financial and customer data with Supabase RLS, secure authentication, role-based access patterns, input validation, and controlled checkout workflows.
- Structured the application for automated testing, Core Web Vitals, accessibility checks, Docker-based development, and CI/CD deployment.
