

ESLAM ABOSIFE

SOFTWARE ENGINEER | FRONT-END & WEB SECURITY SPECIALIST

eslamabosife69@gmail.com • +20 120 125 3897 • Tanta, Egypt

Portfolio: eslam-abosife-profile-two.vercel.app • GitHub: github.com/eslam1abosife • LinkedIn: linkedin.com/in/eslam-abosifeaa1b222ab

PROFESSIONAL SUMMARY

Security-focused Front-End Software Engineer with a B.Sc. in Computers & Communications Engineering and 2+ years of experience building high-performance, resilient web applications using Vue 3, Nuxt.js, React, and Pinia. Specialized in Web Application Security (OWASP Top 10, XSS/CSRF mitigation, secure authentication pipelines, CORS/CSP, and Supabase Row-Level Security). Combines strong front-end architecture skills with a security-first mindset to ship products that are fast, accessible, and resistant to common attack vectors.

PROFESSIONAL EXPERIENCE

Front-End & Security Engineer — Tamkin (UAE - Remote)

Dec 2024 – Present

- Spearheaded front-end engineering across 4 core company products (Tamkin Assistive Dashboard, Share Main Platform, agentweb-main, and player-video) using Vue.js, React, Node.js, and Express, adhering strictly to OWASP security guidelines.
- Hardened administrative endpoints, application interfaces, and secure media streams against unauthorized access by integrating automated rate-limiting, secure JWT authentication, and session invalidation, reducing exposure to common auth-bypass and session-hijacking attack vectors.

Web Security & Front-End Intern — Awon Humanitarian Platform

Jan 2024 – Aug 2024

Egyptian Tech Firm Internship · part-time, concurrent with Ella Retail Engine below

- Developed an enterprise charity web platform using Vue.js and Vuetify, optimizing UI rendering performance and cross-device responsive layouts.
- Prevented unauthorized data access and privilege escalation by authoring granular Firebase Security Rules governing donor records and financial data streams.

Front-End Engineering Intern — Ella E-Commerce Retail Engine

Jan 2024 – Jun 2024

Egyptian Tech Firm Internship · part-time, concurrent with Awon Platform above

- Architected a dynamic, responsive retail frontend using Vue.js and Vuetify, implementing reactive state management and persistent cart sessions.
- Neutralized XSS and injection threats by enforcing strict client-side input sanitization and payload validation across all REST API integrations.

Live Demo: ella-ecomme.web.app

PERSONAL PROJECTS

Electrical Store E-Commerce & Management Platform

Jan 2026 – Present

- Built a high-performance e-commerce web app and accounting dashboard for an electrical retail store using Nuxt.js, Vue 3, and Pinia, with real-time inventory tracking.
- Secured financial data and customer records by architecting Supabase Row-Level Security (RLS) policies and implementing encrypted checkout workflows.

TECHNICAL SKILLS

Web Application Security: OWASP Top 10, XSS & CSRF Mitigation, JWT/OAuth, CORS/CSP, Input Sanitization, Supabase RLS, Secure Auth

Front-End Engineering: Vue.js (Vue 3, Pinia, Vuex), Nuxt.js, React.js, Blazor WASM, JavaScript (ES6+), HTML5, CSS3

Backend & Databases: Node.js, Express.js, ASP.NET Core, REST APIs, Supabase, Firebase, MongoDB, PostgreSQL

Tooling & CS Fundamentals: Tailwind CSS, Vuetify, Git/GitHub, Vite, Docker, OOP, Data Structures, Algorithms

Languages: Arabic (Native), English (Professional Working)

EDUCATION

B.Sc. Computers & Communications Engineering

Faculty of Engineering, Tanta University — Graduated 2026

CERTIFICATIONS & TRAINING

- Web Application Security & OWASP Top 10 Standards
- Advanced JavaScript Masterclass — Elzero Web School
- C++ & Software Engineering Fundamentals — Hadhoud Academy
